

How to Recycle at UUVC

The UUVC Recycling Team accepts glass, plastic (#1 and #2 only), aluminum cans, batteries and ink cartridges in the bins. We also take cardboard in the kitchen annex.

Thank you for your efforts to make our church and our community a greener, more sustainable place. **Please help our Recycling Team by adhering to a few simple rules:**

1. Place your clean, recyclable items in the proper bins--not in bags or on the floor.
2. Remember, only plastics labeled #1 or #2 are recyclable.
3. Remove ink cartridges from non-recyclable packaging. If cartridges are leaking, dispose of them in the trash.
4. Place recyclable batteries loose in the proper bin. Cover posts of #9 batteries with tape. Do not leave bags of batteries in the bin.
5. If you're not sure your items are recyclable, please ask before you leave them. And If you have items that are too heavy or difficult to manage, let us know and someone will assist you.

Following these guidelines prevents extra work for the Recycling Team. We appreciate your cooperation!
